Personnel of Embassy Reduced Almost to Vanishing Point.

Berlin, July 2.—The situation which has developed in the American embassy at Berlin as a result of the retirement of Dr. Hill is becoming the subject of increasing wonderment and mystifica-tion berg

Dr. Hill had a farewell audience with the sovereign to whom he was ac-credited, but he did not hand in the name of his successor on that occa-sion, nor did he present his papers of Totali

The only possible explanation of his allure to take this usual course could be that he had no papers of recall to resent, and it is an open secret in iplomatic and official circles here that

diplomatic and official circles here that the powers that be in Washington simply neglected to send him any.

The anomalous position in which Dr. Hill is placed by this omission is causing no little gossip and shaking of heads on the part of both the diplomats and the government officials, some of whom jocularly declare themselves skeptical as to whether Dr. Hill will really be allowed to retire.

Dr. Hill went to Kiel at the Kaiser's invitation, which, in the circumstances, was, of course, equivalent to a command. As Secretary of Embassy Irwin B. Laughlin is still on furlough in America, and the new second secretary, appointed many weeks ago, has not yet arrived, the charge d'affaires post devolved upon Third Secretary Perry Belden, who is one of the youngest men in the entire United States diplomatic service, and whose experience up to date has necessarily been extremely limited.

Party of Picnickers in Wagon Struck by Long Island Train.

New York, July 2.—Five persons were killed and two injured in a grade crossing accident near Ozone Park, in the suburbs, late to-day. The victims were in a horse-drawn vehicle, which was struck by a Long Island Railroad train

were in a horse-drawn vehicle, which was struck by a Long Island Railroad train.

The crossing where the accident occurred is at the bottom of a slight decilivity and flanked by obstructions which prevent a clear view in either direction. In the wagon was a party of five residents of the East Side, who were out picnicking, and a driver. Or the four women and two men in the vehicle only one—a woman—is alive to-night, and she probably will die. The other injured person is Richsrd Creed, conductor of the electric train which struck the vehicle.

The bodies of two of the victims were ground under the train. Two other bodies came hurtling through the open front door of the first car and struck Creed as he stood in the aisle. The impact knocked nim against the car seats with terrinc force and one of his arms was so badly crushed that it had to be amputated. The body of the fifth victim was thrown some distance.
